

31st San Juan Regional Science and Engineering Fair

Call for Judges

March 09 –10, 2018

Piedra Vista High School

Science

Please come and join us with students from local schools as they exhibit and compete for top honors in this years 31st San Juan Regional Science and Engineering Fair.

Judges are needed in Elementary, Junior and Senior Division categories to interview students and evaluate their projects in a variety of scientific and engineering categories.

Judging commences Friday evening, March 09th, after a judges dinner and orientation. Student interviews are conducted Saturday morning and early afternoon.

Winners in the Junior and Senior divisions will proceed to the New Mexico Science and Engineering Fair, March 30—31 at NM Tech, and two Senior Division students will be selected to compete at the International Science & Engineering Fair, May 13-18 in Pittsburgh.

This is a great opportunity to support youth in the creative scientific process and meet some really dynamic students. We look forward to having you join us!

If you are interested, please contact:

Dr. Julius N. Manz , Head Judge
